EDUCATION

- **University of Toronto** Toronto, ON
Coding Boot Camp Certificate Graduated 2022
- **York University** Toronto, ON
Bachelors of Arts in Information Technology (with Honours) Graduated 2021
 - **Relevant courses:** System Analysis and Design, Database Management Systems, Network Architecture

PROJECTS

- **Fitness Tracker** <https://jeffiftyone-fitnesstracker.herokuapp.com/>
Repository: https://github.com/Jeffiftyone/Fitness_Tracker
 - **Track User Progress:** Tracks the user's workout progress by displaying day-to-day user's workout results on graphs for visual representation
 - **Remote Database:** Implemented a remote Database for data security, running JawsDB as a Database as a service for 99.9% uptime.
 - **Application Deployment:** Successfully deployed application online using Heroku for real-time feedback and ease of use.
 - **Built using:** MongoDB/JavaScript/Bootstrap
- **Teach Thru Talk (Group)**
Repository: <https://github.com/FilipAlH/TeachThruTalk>
 - **REST API:** Created routes and REST API to make collaboration between front-end and back-end easily communicated, improving application scalability.
 - **Database Administration:** Developed SQL queries to efficiently retrieve data from databases, utilizing Sequelize ORM for seamless integration and improved data access.
 - **Translator API:** Implemented feature that uses DeepL API to translate highlighted text to selected language, receiving positive user feedback and increased user session time.
 - **Built using:** MongoDB/Express.js/Node.js/Bootstrap

WORK EXPERIENCE

- **Poke Guys (Restaurant)** Markham, ON
Supervisor Apr 2018 - Oct 2020, Mar 2022 - Current
 - **Interpersonal skills:** Resolves conflict and issues presented by customers by actively listening and problem solving, coming to a resolution that leaves the customer satisfied, increasing customer retention.
 - **Leadership:** Displays leadership and time management by delegating tasks to colleagues and ensuring tasks are completed, are actively involved, and all team members are playing to their strengths.
 - **Communication:** Communicated progress and roadblocks to executive management and made recommendations for problem solving solutions that would eventually be put to market, increasing productivity and efficiency.
- **Ledcor** Vancouver, BC
Telus Sales Representative Apr 2019 - Sept 2019
 - **Sales:** Proposed solutions (Internet, TV, Mobile, Security) based on client's needs and pain points, ensuring the client is satisfied with the closed deal. D2D Sales commission based environment.
 - **Customer Service:** Developed customer relationships with over 50 clients for follow up, retaining customer satisfaction and opening networking opportunities for future clients.

SKILLS

- **Languages:** Java, HTML, CSS, Javascript, Dart, SQL
- **Frameworks:** ExpressJS, React, Bootstrap, Flutter, MongoDB
- **Other:** Git, NodeJS, Postman, Firebase
